

Abstract

Engaging Secondary School Students in the English Teaching Assistance Program

Ikhwan Muhammad Fakhruddin, Ma Chung University

Advisor: Dr. Daniel Ginting, S.S., M.Pd.

This report contains the experience of doing an internship program at SMPK Sang Timur. It includes every detail of information about the activities during the internship program. The writer faced several problems during the internship. The problems are (1) lack of confidence while teaching, (2) speaking too fast and sometimes stuttering. As a solution, (1) the writer calmed himself down and took some deep breaths to maintain and build up confidence, (2) the writer spoke slower so that the participants could understand. In general, SMPK Sang Timur is a great place to do an internship program because of the small school size and all of the teachers, staff, and participants' kindness and willingness to accept and teach the interns
