

## **CHAPTER 5**

### **CONCLUSION AND SUGGESTION**

#### **5.1. Conclusion**

Merdeka Belajar Kampus Merdeka (MBKM) is a program that is beneficial for every student who has the opportunity to join this program. Students who join this program will get advantages such as experience, meet new people, getting more insight and acknowledge in accordance with the program chosen by students. Students may uncover new skills, either soft skills such as problem-solving and time management or hard skills such as writing skills or ability to use computer programs.

By joining this program, the writer gets so many benefits such as an experiment in teaching English for junior high school, practicing problem-solving in actual condition. Having teaching experience for the junior high school stage can help the writer to apply the material about teaching that has been given by lecturers at the Ma Chung University before this program started.

The design of the learning process in SMPK Sang Timur Malang adequate and achieved the standards of the feasibility of the learning process in accordance with various learning media

#### **5.2 Suggestion**

Regarding the teaching assistant program followed by the writer at SMPK Sang Timur Malang, the writer acquired many benefits and experience that can be further developed in the future. The writer hopes the MBKM program will continue and have a good impact on every student who takes part in this program. The writer also hopes that in the program to be held next, the advisor who will

soon help students that join this program in the next period would be more helpful to students who join this program so that the information and actions that need to be taken are clearer. Hopefully more parties will be interested in taking part in the Merdeka Belajar Kampus Merdeka program and help students gain various experiences and new knowledge.
