

CHAPTER II

INTERNSHIP ACTIVITIES

2.1 The General Description of The Company

MI Wahid Hasyim 02 Dau is located in JL. Raya Kucur Krajan No. 29, in a village called Kucur. The school is under the authority of Ministry of Religion, and the principal of this school is Mr. Khusnul Yakin. S. HI. Practically all of the entire school's residents are Kucur residents. This is because the school is one of the closest and the only MI-based school in the area of Kucur and Dalisodo. To this day, the school has around 470 students and around 17 classes in the main building. The main building is a big four-story building with a mosque beside it. Each grade has three classes except for the sixth grade. For the fifth grade, their building is not in the same building as other grades; they have a one-story building that consists of three classes. The main building has a teacher's room and a school cooperative that sells snacks, lunches, and school equipments. Not far from the school's main building

For MI Wahid Hasyim, they have a lesson timetable for six days in a week. This school is using the Merdeka Curriculum. On every Monday, they do a flag ceremony before starting the day, and they start the class around 7.15 AM–13.00 PM. On every Tuesday until Thursday, they do sholat dhuha around 6.45 AM–7.15 AM before going to class and start the lessons at 7.15 AM–13.00 PM. And for every Friday and Saturday, they would do sholat dhuha the same time as other days and start the

class from 7.15 AM–10 AM; of course, they have breaks or lunch time in between classes. For the first and second grades, they always go home at 12.00 PM.

MI Wahid Hasyim 02 Dau has its own logo to mark its institution (Figure 1).

Every school needs a mission and vision because they need to have their own values, purpose, and future. Of course, MI Wahid Hasyim 02 Dau has its mission and vision and it is:

- 1) We foster our students' love for learning, encourage them to try new and exciting things, and give them a solid foundation to build on.
- 2) Our school empowers all students to embrace learning, achieve their personal best and build their emotional, social and physical well-being.
- 3) To build and maintain a learning community that produces leaders through faith, Knowledge, and inspiration.

Date	Activity
02-12-2023	Giving grade three A the highlight of the materials for the final exam + last day of teaching at MI Wahid Hasyim 02 Dau

There are some activities that have already held in MI Wahid Hasyim 02 Dau during the internship program:

1. The First Day at MI Wahid Hasyim 02 Dau

Figure 2 First Day at MI Wahid Hasyim 02 Dau

On August 2nd 2023, the writer and all her friends, accompanied by Ma'am Lilis, had the opportunity to go to MI Wahid Hasyim 02 Dau for the first time (Figure 2). On the first day, we were introduced to our supervisor at the school, who is Ma'am Dian Indrianis Fitri M.Pd or who we would frequently call Bu Dian. She gave us a brief introduction to the situation at the school and what the students are like. The writer and all her friends were taken to a few classrooms to observe how Ma'am Dian teaches and handles the students. For every class, the first 30 minutes was handled by Ma'am Dian,

and the next 30 minutes were handled by us. After the session was over, we talked for a bit with Ma'am Dian, took some documentaries, asked for the lesson timetable, and decided what grades we were going to teach, and all of us headed home.

Starting from August 7th to August 31st, the writer and her friends were still adapting to the new environment, especially with the students. It was a really tough job for the writer personally because teaching was a new experience, mainly teaching young students. From how to get the attention of young students to making them understand the materials, it was a challenge for all of us. We also made a schedule for who teaches each class because we were instructed by Ma'am Dian to teach the third until the sixth grade. So, in each class, we had two teachers, and for some classes, we did a shift schedule so all of us could experience teaching the specific class as well.

2. The Independence Day Ceremony

Figure 3 Independence Day Ceremony

On August 17th 2023, there was an activity at MI Wahid Hasyim 02 Dau which is the Independence Day Ceremony, in which the writer and her friends also participated (Figure 3). We arrived at the MTS around 6.50 AM, and the ceremony started at 7 AM. The ceremony was held at the MTS because the school could accommodate a lot more students and teachers than the MI. Of course, Independence Day is very important to us Indonesians, but the ceremony was nothing out of the ordinary except there was one event that startled us because we had not experienced that event before. It was when there were sirens going off and there were fireworks in broad daylight.

It was exciting for the writer and her friends to encounter such new experiences, new habits, and meeting new people who have different backgrounds from us.

3. Teaching Grade Five

Figure 4 Teaching Grade Five

On September 12th 2023, we were instructed by Ma'am Dian to give the question grids for the students in grade five (Figure 4). The writer and all her friends were also doing some exercises about the previous materials so that the students could learn and understand more about the topics for midterm exams. There are a few students that need more attention and focus to learn English because they have so little knowledge of the basics, and for that, we have to start teaching them the very basics like Numbers, ABC, Adjectives, Names of Objects and Animals.

4. Giving a Reward to Students

Figure 5 Giving a Reward for Students

On October 19th, the writer and her friend were teaching grade four A the material that is about My Living Room is Beside the Kitchen (Figure 5). This material was very slow and tough to move on to the next one because the majority of the students could not understand and focus on us. We tried our best to teach them, and eventually we succeeded with playing guessing games and many more English games so that they were not bored learning English. We found the strategic way is to lure the students to be more active by giving them some kind of reward.

From the picture above, the writer and her friend gave some Korean snacks to some of the students who were able to answer the questions that we gave correctly. They were motivated to be active in the class and also boost their confidence.

5. Posters of Daily Verbs

Figure 6 Posters of Daily Verbs

On November 4th 2023, Ma'am Dian asked the writer and all her friends to make posters of Daily Verbs, Comparison, Possessive Adjectives + Possessive Pronouns, Adjectives, and Daily Conversation (Figure 6). All of us started to discuss how to divide the works and who would work on what. The writer chose the daily verbs to work on them. The deadline was on November 14th, so we submitted it on the 13th of November.

On November 17th, Ma'am Dian sent us the picture above and thanked the writer and her friends for finishing the tasks that she asked us to complete. We were happy and wished that our hard work could be useful to the students.

Figure 7 Mid and Final Exams

On September 6th 2023 and November 22th 2023, Ma'am Dian gave the writer and her friends a task: to make questions and the answers from grades three to six (Figure 7). All of us had a supervisor for each grade, so we just worked on it based on the supervisor. The writer is the supervisor for grade six, and it is not that tough to create questions for elementary school because the materials are easy to understand.

Job Description at MI Wahid Hasyim 02 Dau as an Intern:

- a) Teaching English to young students from grade three to grade six.
- b) Doing tasks or projects that are given by Ma'am Dian.
- c) Making questions for the midterm and final exam at MI Wahid Hasyim 02 Dau.

The mechanism at MI Wahid Hasyim 02 Dau

- a) All of the interns must come to the school according with their teaching schedule and could leave if there is no more teaching activity.
- b) During the teaching hours, interns must stay focused and not play with their gadgets especially in front of the students if it is not something important.
- c) When given a task by Ma'am Dian, interns must work on it and finish it as soon as possible.
- d) If an intern cannot come to the school for some reason, please ask permission from Ma'am Dian as the supervisor.

2.3 The Problem

Although the internship program at MI Wahid Hasyim 02 Dau has already been conducted effectively, an issue continues to arise. There are problems that the writer has already discovered as an intern:

- a) The shortage of English teachers in MI Wahid Hasyim 02 Dau does affect the quality of the teacher in teaching and the students' qualities in leaning. There are only 2 English teachers, and they teach 17 class. By the writers' observation, the teachers are overwhelmed with the amount of classes that they have to teach every single day.
- b) Another issue with the quality of English teachers that the writer encounters is how one of the teachers teaches in the class. The teacher has a tendency to give the students numerous exercise in the little amount of time that they have. The students are overwhelmed with that learning method because the writer and her friends observed the situation and how the students executed the tasks.
